Culminating Project
Community Service Plan

PLAN DUE DATE:
October 30, 2009 to CWP

Name: _____
CWP Teacher: _____ English Teacher: _____

The community service component will be an active learning service project that requires students to apply their skills in a real-life setting, and in doing so, help students transition from high school. The experience may or not may not be tied to a career pathway, relate to the research paper, be monitored by a community supervisor and include at least ten hours of work outside the school day. The community service needs to be community service, not self service or a job shadow. The experience needs to be with an approved organization and supervised by a community mentor/supervisor. Students who do not fulfill the community service component will not earn credit (20% of 2nd quarter CWP grade).

☐ I have not yet arranged my community service and realize this will impact my grades in senior English and CWP.

My parent/guardian and I are aware that I must pass all four components of the project – community service, paper, portfolio, and presentation. I also understand that the project selection decision is made independently of the staff and administration of the high school, but is subject to school approval. This project selection is student and parent centered. I therefore assume all responsibility for any risks and cost, which might be inherent in the project chosen. Both my parent/guardian and I also understand that faking or plagiarizing any part of the project will lead to failure of the assignment. Finally, I will demonstrate to my supervisor that I am a knowledgeable citizen, and an independent, productive and employable worker.
